Sir:

The computer readable form in this application, Serial No. 09/487,558, is identical with that filed in divisional application Serial No. 09/801,368, filed March 7, 2001. In accordance with 37 C.F.R. §1.821(e), please use the computer readable form filed on August 1, 2001, in that divisional application, as the computer readable form for the instant application. Specifically, Applicants filed three (3) copies of a CD-ROM as allowed in the changes to 37 C.F.R. §§ 1.821 - 1.825, as published with the Federal Register on September 8, 2000. Under these rules, a paper copy of the Sequence Listing was not required and, therefore, was not submitted. It is understood that the Patent and Trademark Office will make the necessary change in application number and filing date for the computer readable form that will be used for the instant application.
